Radwinter

Village Appraisal 2005

Following a Government initiative to find out the wishes of local people about their community, a steering group for a Radwinter Parish Plan was set up at a public meeting on 2nd October 2004. The objective of this steering group was to carry out a village appraisal and then produce a Parish Plan describing the aims and needs of the village. This will help the Parish Council to plan in an informed way for the future of the village and to work with other tiers of local government, such as Uttlesford District Council, Essex County Council, and other agencies. The Village Appraisal document is a precursor to the Parish Plan. It is based on the responses to questionnaires distributed to every house and business in the parish of Radwinter.

The most recent 2001 census figures give the total population of Radwinter as 595. The 168 returned questionnaires related to 454 inhabitants. This represents 76% of a possible total which we consider sufficient to give a representative picture of our village. The following document contains a brief analysis of your responses compared, where possible, with the analysis of the 1994 Village Appraisal.

The Parish Plan will reflect this Appraisal. The challenge lies in maintaining a balance – retaining those aspects of the village which people value, while preserving its character and ensuring that there is appropriate development and growth to keep a lively, mixed community.

So there is still some way to go to produce the Parish Plan. The Steering Committee has been considering the format and what should be the key Action Points that have arisen from the Village Appraisal.

And here's where you come in...if you want a chance at Steering the Steering Group we've organised a Public Meeting in **Radwinter Village Hall**, on **Saturday 1**st **July, 10am to 3pm.** The idea is that you can drop in at any time during the day, have a look what we have done so far and contribute your own ideas.

Make a note in your diary **now** - we look forward to seeing you there.

Sue Bright April 2006

2 Overview

2.1 Household

Question 2 - Age/sex group comparison 1994-2005

To make a comparison with the data from the 1994 appraisal the age groups have been amalgamated.

The graph shows that, of the number of people responding, the 11-59 age range has increased considerably in number since 1994 and the 60+group has remained static but the overall distribution is essentially similar.

Looking at the age and sex distribution it is clear that in the 11-24 range the number of females now are over double the number of females in 1994.

The rest remain approximately static but it would seem the proportion of males to females in the 75+ range has almost

doubled as in 1994 there were half as many males as females but now are about the same.

Question 3 -Type of dwelling

Private rented accommodation has almost halved from 7% in 1994 to 4.6% in 2005. Local Authority rented is almost unchanged 10% to 9.3% whereas 'as part of employment' has dropped from 3% to 0.9%, which reflects the trend in the reduction of agricultural workers.

Question 4 - When dwelling was built

See detailed replies on page 11 for breakdown in 20th century. A lot of dwellings will undoubtedly have been replacements so the conclusion that there are more houses now may not be correct.

Question 5 -Attendance at educational establishments

Questions 6/7 - Need of alternative accommodation

In 1994 3% of the respondents were looking for alternative accommodation, in 2005 the proportion has almost doubled to 5.6%. The chart shows the reasons for those who are unable to move to accommodation of the type needed; almost half stating the lack of suitable property to buy or the lack of local authority/housing association homes.

Questions 8/9/10 - People have left because:

Nine people have left in the last year, six for further education, three to live independently or set up home with a partner and not able to find a suitable property to buy or rent in Radwinter.

Question 11 - Roadworthy vehicles kept by households:

Cars 291 Vans 19 Motor bikes 12

Total 322 for 347 people aged 18 and over !!

2.2 Personal

Question 14 - Time lived in Radwinter

There was an extra category option 'whole life' in the 2005 survey but overall the pie charts indicate similar proportions for both 1994 and 2005 but taken together the 6-25 year range has decreased slightly from over 50% in 1994 to below 50% in 2005 and the 1-5 range has slightly increased.

Question 15 - What is most important to you about Radwinter

'Love of country life' was clearly the most popular with 57.4% of your 'votes'. Next came 'Attractive area' (40.8%), 'The environment' (35.5%) and 'Love of village life' (31.3%).

Question 16 - Quality of life compared to 1995

Peoples views of the quality of life compared to ten years ago were mostly the same (120) or did not know (123). The people who thought life worse (69) were treble the number who thought it better (22).

Question 17 - Employment

The chart shows a comparison of the employment percentages for 1994 and 2005. The proportion of employees has dropped slightly and the number of self-employed has risen.

Question 18 -Major employer's business

We obviously needed more categories!

Question 19 - Main place of work

The charts show that the proportion of people who work in the village now is about half of that in 1994. Similarly the proportion of those who work over 30 miles away has reduced by about 50%. The proportion of those that travel outside Radwinter but less than 30 miles away is now about 75% whereas in 1994 it was approximately 50%.

Question 20 -Barriers to becoming selfemployed

Question 21/22/23 - Transport

Approximately 90% experience no parking problems but there are clearly some concerns covering 'parking at focal points such as the school, church and hall' and that there should be fewer cars, vans and trucks parked in roads. Over 75% never use the bus and the 10% that use the bus regularly do so primarily for shopping. Thirty-nine people were prepared to take part in a voluntary transport service.

Question 24 - School

A massive 82% consider the school to be very important to the community.

Questions 25/26/31/32/34 - Classes/activities

Interest was shown in the selection of classes listed with yoga, languages, computing and walking the most popular. The most well attended existing clubs are the youth club, WI and Over 60's with many offers to help organise and run activities.

Question 27 - Police coverage

It would appear the perception of our police coverage is variable

Question 28/29/30 - Post Office and Shop

There is a lot of usage of the Post Office and a strong wish to also have a shop, possibly combined with the post office. Many people say they would help.

Question 33 - Play area/recreation ground

Most respondents thought the range and quality of the equipment to be good or reasonable but there may be some concerns about the location. 'The wall is too close to the bowls club'. There were suggestions that an all weather surface should be provided for 5-a-side football, tennis and basketball.

Question 35/36 - Information about events in Radwinter

Just over 83% of you said Ambo was where you usually got your information and 60% said the notice board.

76% said the amount of information is good or reasonable, 12% poor.

Question 37 - Telephone box usage

Only one person uses often and 31 occasionally.

Questions 38/39/40/41/47 - Local council

Over 80% have never attended a parish council meeting and many had no opinion on whether issues discussed reflected local concerns. Almost 75% (of those that had an opinion) considered that the local Council publicises its decisions and activities reasonably well.

Your responses indicate that local elected representatives are aware of local concerns and feelings at both parish and district level but less so at county. About 60% (of those with an opinion) were satisfied with the way the planning system is implemented in Radwinter.

Question 42/43 - Encourage?

There would appear to be quite a lot of support for activities of various sorts.

Question 44 - Accommodation needs for Radwinter

The table shows a breakdown by age groups against anticipated accommodation needs for Radwinter. The left hand column shows the categories offered on the questionnaire and the numbers in the table are the direct counts of the responses e.g. the *16* in column '11-17' and row 'young people' is the number of 11-17 year olds that opted for 'houses for young people'. The table shows how the overall totals, in the summary data section, for question 44 are made up across the age ranges.

11	-17	18-24	25-44	45-59	60-64	65-74	75-84	85+	Total
Young people	16	16	43	55	18	27	14	6	195
Large family	2	5	14	11	1	4	1	0	38
Small family	12	10	31	45	14	24	10	4	150
Executive	0	2	2	4	0	1	0	0	9
Disabilities	1	8	23	21	10	8	5	1	77
Singles	4	10	15	30	6	12	5	0	82
None needed	3	6	30	22	5	7	6	0	79
Other	2	2	3	2	2	3	1	0	15
									645

Looking at the 18-24 age range they are clearly in favour of homes for single people, their 10 is a higher proportion than for any other age group; the 30 in the 45-59 age range is also high – perhaps these are the parents of the 18-24's.

Comments about housing ranged from:

'more housing for young families, starter homes, we need to have a reasonable turnover to prevent becoming a dormitory village', 'a mixture of affordable and open market housing ...which could in turn lead to the creation of a village shop and more children at the school', '...should be kept in East View Close' to:

'no more houses to be built', 'stay as it is', 'no more ...in East View Close'. So we have the full range there!

Questions 45/46 - Acceptable development

The majority want small development, if at all, but there is some support for businesses that will provide employment.

Question 48 - Church importance

Clearly the church is still very important to us.

Question 49 - Local environment

There is strong support for recycling (77%), improved public transport (66%), traffic reduction (50%), and energy saving (50%).

There is support for community composting (34%), local employment (34%), improved rights of way (25%), car sharing (18%) and advice on healthier lifestyles (18%). About 13% had no ideas or did not know what to do.

Question 50/55 - Environment importance and improvements

Woodland, hedges, ditches meadows, traditional farm buildings and footpaths are clearly very important to lots of people and many would like to see these improved.

Other observations

Many of you felt that walking could attract visitors and residents alike. Well over 50% know where the local footpaths are and over 40% can use them without difficulty, but signposting could be better and 31 of you said you would be willing to help maintain them – watch this space! Some of the problems that have been encountered on the footpaths are mud/water, crops across the path, bushes and nettles being commented on the most by just over 50% of you. It is clear that there is a need for leaflets with maps of local footpaths and just over 35% would like guided walks.

It is clear that the majority are in favour of a Farmers market.

It is clear that Radwinter Primary School is very important to the local community and that the Church is greatly valued as an historic building, a focal point for the community. Many of you would use a community shop and some volunteered to help.

A large majority felt that it is very important to look after woodlands (66%) and plant more hedges and trees (35%). Clearly the most important features of the surrounding countryside are woods, hedges, ditches, meadows, green fields, wild flowers, birds, wild animals and footpaths. 'What about a wind turbine or 2?'.

Recycling, improved public transport and reducing traffic would enhance the local environment.

There were many comments related to traffic: 'more improved speed restrictions; being able to see traffic at crossroads', 'strong concerns of speed in village especially motorbikes', 'encourage cycling by making cycle-ways e.g. Water Lane if it is blocked to cars', 'cycle path to S Walden and station', 'cut traffic speed and noise', 'more traffic calming', 'limit transport in quiet lanes', 'a pedestrian crossing at the crossroads', 'zebra crossing at the school', 'reduce urban influence i.e. too many traffic signs – they are ugly', 'less creeping urbanisationthe centre...has been spoilt by road "improvements", 'I am very concerned about what Stansted airport many do to lessen the peace of Radwinter'.

There were many comments about improving community spirit and having more community events: 'whole village activities like open air concerts on the rec', 'more genuine all community meetings/activities', 'we need a heart, the pub is not enough...with a shop so that people can commune and get together', '...simple social events to bring people together', 'tea room would be nice where people could meet/chat'.

Some of your comments about the appraisal process

'Shorter questionnaires give more chance of focussed feedback and honest answers. Many questions are variation on a theme.'

'Some opportunities for information collection missed: second homes/second homeowners; daily population movement within area; access to secondary education/private education; percentage already attending adult ed classes.'

'Good idea to do the questionnaire. Lets hope we can find a good central location where we can all get together as regularly as we want to enjoy life with our fellow villagers.'

'In my opinion a village appraisal is a bad idea. The results will be used over the next decade to implement changes suggested regardless of changing circumstances in years to come.'

Perhaps this person would like to join us to make sure it does not happen!

'If over 50% of these forms are returned, I feel you will be well on the way to refurbishing the Village Community.' It was about 68% of questionnaires returned with individual responses for 76% of the population as stated in the preface.

2.3 Youth

We had 48 responses to this questionnaire, representing most of the young people in the village. The age and sex of the respondents was fairly equally spread, most of whom are in full time education.

Most travelled by car or bus to school or work and not many were members of Radwinter Clubs. The majority of young people socialised in Saffron Walden or Cambridge, at the cinema, shopping areas, the common and cafes. When in Radwinter most people meet up in friends' houses or on the recreation ground.

There was interest in attending new clubs if offered, with an overwhelming request for Tennis. Other dominant interests were Music, Table Tennis, Art and Crafts, Football, Drama and Computer/internet.

Suggestions for focal points and improvements to village were: Youth centre, club house, small café, and a hard surface area for basketball, skateboarding, rollerblading and tennis.

The things young people like most about Radwinter are:

It's environment – clean, nice countryside, safe and friendly. The recreation ground, the school and the pub were also mentioned.

The things young people dislike about Radwinter are:

No shops, nothing to do and poor transport and cars speeding through the village

Changes they would like to see are: better transport, cycle paths, slow down cars through the village, and create hard play surface on recreation ground.

2.4 Business

Twenty three businesses replied to the questionnaire, although only about half gave contact details and about half were interested in being listed in a village directory. The 1994 survey did not have a business section, although 14 households (11%) ran businesses in the parish then.

All eight business categories operate in the village, with agriculture the largest sector (22%), much higher than the national average and reflecting Radwinter's rural position and agricultural heritage. Over half have been operating for over 10 years with evidence of slow growth - on average one new business per year. Employment numbers are static and several jobs are part-time. Over half (55%) of employees live in Radwinter.

Most businesses seemed fairly contented, in premises of about the right size (most on domestic premises), had few recruitment or retention problems and couriers/customers were largely able to find them. However, two businesses sought new premises, with one likely to leave the village.

Most were happy with the road system, although 24% were concerned about speed or parking and wanted more effective control measures. Most thought services good or satisfactory, with the highest level of dissatisfaction relating to the internet. [This was before Broadband became available]. Over two thirds of businesses have email addresses and a third have websites.

This group showed more support for development, particularly of small businesses, than the general population, although there were strong opposing views too.

3 Detailed replies

The Household and Personal details were produced using the University of Gloucestershire Village Appraisal software program. This software allows analysis in various ways, such as the difference between male and female responses. Only the basic analysis is given here.

56 How you would like Radwinter to develop

56.1 Housing - not opposed to some development (109 people)

71 (25.1%)

Other

1 Slowly, gradually, controlled. (27 people)

No difficulty experienced

- 2 Traditional rural way to prevent any further erosion of its environment and community spirit. (19 people)
- 3 Low-cost/part ownership housing in East View Close to encourage families into the village. (23 people)
- 4 Slowly, avoid large development, housing or industry, small growth to bring in new people. (2 people)
- 5 At a steady pace to give other people a chance to live here who could not possibly afford current prices.
- 6 Radwinter to stay small with restricted conversion of farm buildings and the like for local young people.
- 7 No more large private dwellings. Small sensibly priced housing.
- 8 Cheap housing for young couples (renting!!)
- 9 Housing for Young people survey people movements (in, out, births, deaths) to ascertain level of need. (2 people)
- 10 Radwinter to keep its 'village' feel with no perimeter spread. Any new low cost housing should be kept in East View Close area. (2 people)
- 11 To stop village fossilizing increase local employment and appropriate housing for local people. (3 people)
- 12 New housing ought to be 2 bed terrace cottages cannot be easily extended and therefore remain for young and old, keeping balance correct (Nesfield cottages Church Hill excellent examples).
- 13 More small bungalows, not flats for young and old. (2 people)
- 14 No more low cost housing in East View Close. Ideal place is Water Lane where facilities are available and children would be able to play without disturbing elderly residents.
- 15 Allow some high cost housing development to attract increased local wealth.
- 16 In line with modern technology and normal social and economic trends in a locally derived plan.

- 17 Develop as a supported community.
- 18 No industrial or commercial development so Radwinter remains a delightful village.
- 19 Restricted major development. Keep identity by active conservation not preservation.
- 20 Affordable housing-the 6 we have are more costly than Saffron Walden .Built for £70,000 sold for £ 140,000.
- 21 Retain essential character with more amenities and accommodation for a wider range of residents.
- 22 Improved community spirit. More opportunities for young families.
- 23 Mixture of affordable/open market housing leading to village shop/more children at the school. (3 people)
- 24 Choose sites carefully, tuck away no large housing development. (3 people)
- 25 The mushroom farm to be developed for housing.
- 26 As country village with much to offer to all ages and walks of life; more job opportunities within the village.
- 27 Evolution not development. pc should consult those affected by plans and represent those views.
- 28 Made pretty, more houses could be built if appropriate style, viz. new cottage in Sewards End. Fill gap between church and pub to make village less disjointed.
- 29 Impossible for single person to afford private rented
- accommodation; if considered adequately housed in private
- accommodation, council will not consider putting you on housing list,
- so single elderly person in 4-bed house has nowhere to go.
- 30 Carefully designed small groups of less than ten.
- 31 Sensible extensions and ancillary accommodation.
- 32 Convert large buildings to multiple occupancy (2 people)

56.2 Housing - opposed to development (43 people)

- 1 No development at all. (27 people)
- 2 Should we question why the world thinks development is necessary. Change is not an improvement and development usually equals an income in CO2 emissions. Perhaps maintaining a sustainable community is sufficient for us.
- 3 Keep village identity ie restrict new building. (5 people)
- 4 To remain compact but to provide better amenities and an enhanced sense of community. (2 people)
- 5 No need for extensive development as this would harm the village. (7 people)
- 6 Don't think East View Close should be enlarged.

56.3 Other development comments (22 people)

- 1 Into a more centralized community around post office, local store and church.
- 2 Possibly encourage some sustainable economic activities but not those that may be of significant detriment to the environment, create a pond.
- 3 Important to preserve current character, opposed to "moving forward" agenda. Generally parish council and district council should consult and listen regularly not once in a lifetime like this. E.g. we don't want street names, or pavements.
- 4 Preserve traditional countryside and village buildings, school, pub, protect from airport development, feature ponds, commercial or voluntary shop. Young people aren't forced out of the village, they WANT to leave, then come back to family homes later in life.
- 5 We moved to Radwinter, a small village, ideally distant from the nearest town with its extra amenities mainly because of its distance from urbanisation. We would rather not have that urbanisation brought into Radwinter.
- 6 So many villages have been infilled. Radwinter's charm is that this has mostly not happened and the different areas: Maple Lane, Radwinter End, Water Lane, are all distinct from each other.
- 7 Development of farm buildings for light industry, craft.
- 8 Go back 30 years and start again.
- 9 Community awareness and prevention of Sewards End Style agricultural land sales as bogus building plots.
- 10 As a more self sufficient community with local food supplies and environmentally sound planning.
- 11 Self sufficient well kept hanging baskets.

- 12 An area of allotments would provide space for those with small gardens ie. new housing, encourage self-sufficiency and help community to coherence.
- 13 A shooting ban of course! (5 people)
- 14 Better insulated housing. Promote solar heating and power generation. Water conservation. New green housing solutions. 15 What about a wind turbine or 2?
- 16 Dog waste bins and dogs allowed access to recreation ground (on leads).
- 17 House owners encouraged to tidy their front gardens.
- 18 I worry that extending East View Close is creating a satellite community (as has happened in Great Chesterford). Village planning should look at using the empty quadrant off the main cross roads, ie from the old Red Lion to the only Pub, The Plough. This would engage the Pub into the village and keep a centralised village as envisaged by Nesfield when he re-planned the centre of Radwinter post fire.
- 19 We have a well known Arts and Crafts village, spoilt by insensitive electric wires, modern lights and modern bollards. I would like to see the removal of all (not just telephone) overhead wires at the main cross roads and two reproduction lamps (with modern bulbs, inards, etc) and some cast iron bollards with lights (Yes they are available) would greatly enhance our village centre. A reinstated village pond would be the icing on the cake but are the PC brave enough to stand up to the Health and Safety and quote the environmental case which is gathering gov momentum!
- 20 Village still spaced-i.e. rural within itself. The spaces between old houses not filled in.

57 Other comments (integrating those in Q12 to Q55)

57.1 Car parking (5 people) (Q49)

- 1 Improve car parking at focal points such as the school, church and hall.
- 2 Fewer cars, builders vans and trucks parked on roads. (2 people)
- 3 Parked cars in Princes Well are a hazard. (2 people)

57.2 Church (11 people) (Q48)

- 1 Family friendly church involving the whole community.
- 2 Bell ringing practice should be severely curbed as it is unreasonably long and goes on too late by an hour.
- 3 Rector great support when I lost my husband
- 4 Use for Concerts
- 5 Good to have a new Vicar
- 6 Two generations in graveyard very peaceful.
- 7 For the School
- 8 Unable to go each week but would if able bodied
- 9 Can't get there no car
- 10 Very beautiful important for community and worship
- 11 Not important to me at all.

57.3 Community activities (27 people) (Q25, Q28, Q33)

- 1 More community/learning activities language classes, walks, keep fit, drama (4 people)
- 2 More community activities in order to meet people and socialise, particularly simple events, open air concerts. (10 people)
- 3 We need a heart, the pub is not enough, a good community centre (like Sewards End has) with a shop so that people can commune and get together regularly. (3 people)
- 4 Would like to see the post office combined with a local shop and new village hall built on the recreation ground with the existing village hall and post office sold to help funding.
- 5 More activities for the children of Radwinter, to keep them occupied. (2 people)
- 6 Tea room would be nice (as Ashdon Museum) where people could meet/chat. Pub too pricey! Co-ordinate with Ashdon don't compete. Lack of cohesion as we are. Too strung out!"
- 7 If over 50% of these forms are returned, I feel you will be well on the way to refurbishing the Village Community.
- 8 Pottery, Turning, Chess, Astronomy, Contract Bridge 9 Music
- 10 Use Mothers and Toddlers & Recreation Ground
- 11 WEA weekly autumn and spring
- 12 Family history

57.4 Community information (7 people) (Q35)

- 1 More information about community events. (3 people)
- 2 More communication from the Parish Council regarding decisions particularly planning comments to Uttlesford DC
- 3 Village maps and history panels would be great.
- 4 Parish Council open meeting
- 5 Neighbours

57.5 Community Safety and Crime Prevention (7 people) (Q27)

- 1 Maintain and improve the quality of life by being vigilant against vandalism and crime. (2 people)
- 2 More police might be a good idea to stop any problems before they develop. (3 people)
- 3 Very nice village in which to live. Peaceful, always tidy and everyone friendly and polite. It feels safe.
- 4 Haven't seen one

57.6 Employment (7 people – but see also 56.1 Housing – not opposed to development) (Q18)

- 1 Local jobs to give young people a chance to settle here and give village a future. (5 people)
- 2 A wider range of employment opportunities.
- 3 Create better facilities work, clubs to encourage young families, couples and single people.

57.7 Footpaths and bridleways (22 people) (Q49, Q53, Q54)

- 1 Map for local walks needed.
- 2 More off road access for horse riders. (2 people)
- 3 Having a dog and finding the paths very difficult along the main road and the one I tried today so near my house even got caught up on a tree over the path Having a dog and finding the paths very difficult along the main road and the one I tried today so near my house even got caught up on a tree over the path.
- 4 Bridle paths are lacking. (4 people)
- 5 Electric fencing in Horse-fields not always signed.
- 6 Keep clear Public footpaths/bridle ways. Provision of dog waste bins essential.
- 7 Better maintained footpaths & cycle ways (2 people)
- 8 4x4 off road users causing damage
- 9 Generally OK but odd lapses and difficulties (2 people)
- 10 Ruts and fouling where horse riders use footpath. (4 people)
- 12 Overgrown hedges. Paths ploughed up.
- 13 High Stiles with no low access for dogs especially around New House Farm.
- 14 Fallen trees

57. Stansted Airport 8 Noise and Pollution (10 people)

- 1 Maintain and improve the quality of life by campaigning against the airport expansion. (2 people)
- 2 Less over-flying aircraft/noise pollution. (2 people)
- 3 I am very concerned about what Stansted airport may do to lessen the peace of Radwinter.
- 4 Aircraft noise getting worse.
- 5 Very noisy, not only traffic and planes but also mowers and strimmers. In Germany the latter cannot be used in the afternoon, some such restriction would be desirable. (2 people)
- 6 Oppose any increase in aircraft numbers and pollution. (2 people)

57.9 Public transport (19 people) (Q23)

- 1 Better public transport (might cut down on traffic). (15 people)
 2 Better public transport to link up with other villages (not just Saffron Walden).
- 3 Bus service to station.
- 4 Press LEA to improve school transport eg 6th form free and late buses to maintain facilities for families.

When our son stayed with us and caught the train to Cambridge we had to take him to the station because the local bus arrived in Saffron Walden 5 mins after the town bus left for the station.

5 Bus shelter at the junction of Stocking Green and S/W road for children waiting for school bus.

57.10 School (2 people) (Q24)

- 1 Develop School.
- 2 Quality schools.

57.11 Street Lighting and Signage (10 people) (Q49)

- 1 More powerful streetlight at Village Hall crossroads.
- 2 I would like to see less creeping urbanisation" e.g. road signs, flashing school lights etc. Some are necessary but most are not. The centre of the village has been spoilt already by road "improvements". (4 people)
- 3 Reduce the 'urban' influence i.e. too many traffic signs they are ugly.
- 4 A road sign/name for Princes Well.
- 5 Dead end sign at the junction of Stocking Green and S/W road. (2 people)
- 6 Reduce above ground electric cables underground cables in centre of village Church/PO.

57.12 Hedges, wild life etc (28 people) (Q50, Q51, Q52)

- 1 Encourage bees. (3 people)
- 2 Happy to provide bee-keeping skills.
- 3 Consider protection of birds and wildlife when removing vast tracks of hedges/trees. (2 people)
- 4 Hedges short and tidy where apprpriate; hedges should be cut properly to help wild life. (8 people)
- 5 Create more ponds & lakes. Preserve streams. (7 people)
- 6 Bird and animal survey to see what's happening locally to add to the RSPB survey. (2 people)
- 7 Variety of hedges trim to 'A' shape along road sides more natural less trimmed along filed boundaries. Variety of habitats important 8 Stop Landowners desecrating hedges by machine cutting. Better to let them grow out! (2 people)

57.13 Surface water drainage, verge maintenance and soil waste disposal (7 people) (Q49)

- 1 Better management of drains and ditches. (2 people)
- 2 Ditches need clearing. Council wastes money cutting cow parsley, it is pretty and cars travel more safely along water lane when it is high as they cannot see round the bends.
- 3 Daffodils lovely but cut down too early may come up blind next year.
- 4 Stop verge encroachment by Highways which is widening roads and increasing speed and resulting in more accidents and near misses. Our road has been widened by 4'0" (1200mm) in 20 years.
- 5 Keep footpaths & pavements clear of overgrowth without damaging verges.
- 6 Mains drainage Maple lane,

57.14 Farming crops (3 people)

- 1 Encourage farmers to grow less oil seed rape to reduce pollen irritation (if there are commercial alternatives) (2 people)
- 2 Reduce chemical use on farms.

57.15 Shop/Post Office (45 people)

- 1 Village Shop supplying necessities, newspapers, DVDs etc (like the one in Clavering?) (38 people)
- 2 Community shop (4 people)
- 3 Farmers Market local produce
- 4 Post office open more hours. (3 people)
- 5 Post usage Photocopying (10 people), Phone top-up (7 people), Cards (4 people), Advertising, Banking & Plants (3 people), Books, Cash, Foreign Currency, Drinks, Confectionery & Information (2 people), First day covers, Gifts, Old stamps for charity, Stationery, Travel insurance, Papers, Passport, Pay bills & Rhubarb (1 person)

57.16 Pub (10 people)

- 1 Another pub would be nice, but current one is excellent for food etc. (5 people)
- Maintain the few facilities we have ie the pub.
- 2 Support local pub only genuine community centre in village. (4 people)
- 3 Perhaps more quizzes or Bingo.

57.17 Recreational/sports facilities (26 people) (Q31, Q32, Q33)

- 1 Village green.
- 2 Tennis courts on recreation ground. (5 people)
- 3 Make a golf course.
- 4 Basket ball court on the recreation ground.
- 5 Support recreation/sport for the young Kids football team. (2 people)
- 6 Would strongly support the provision of an all weather surface which could be used for 5-a-side football/basketball and tennis etc.
- 7 We need a large sports pavilion which can cater for all sports and events to pay for running costs our village hall is in the past not the future.
- 8 Improved recreation facilities for young people and children.
- 9 The wall is too close to the bowls club
- 10 Childrens play area Its good to have such a safe environment for young children i.e. far from cars.
- 11 Childrens play area too exposed and too far from houses for safety better close to pavilion. (9 people)
- 12 Childrens play area Desperately needs weeding, fresh wood chops and maintenance. Pity equipment is covered in bird droppings with no means of cleaning. (2 people)

57.18 Traffic (49 people) (Q49)

- 1 Traffic is a big, dangerous problem more monitoring and slower speed limits, particularly through village. (14 people)
- 2 Water Lane/Walden Road cross crossing near church with 2 children (1 disabled) is very dangerous; Make it able to see traffic at crossroads review the sight line to the right on exiting, i.e. the hedge, make roundabout and/or pedestrian crossing. (4 people)
- 3 More traffic calming. Slow down speed sensors on Hempstead road. Would be great if main road could be 20mph zone. Restrict miles per hour around the residential areas etc to 10 miles per hour. (12 people)
- 4 Encourage cycling by making cycle-ways e.g. Water Lane if it is blocked to cars, to Saffron Walden and station. (5 people)
- 5 Zebra crossing at school.
- 6 Big reduction in heavy traffic and speed of same, particularly in quiet lanes lorries and buses. (2 people)
- 7 Maple Lane make 30 mph zone, reduce traffic, introduce weight limit to reduce lorries and make it safe to walk children in the lane. (5 people)
- 8 More speed limit signs on Plough Hill because people don't stick to speed limits.
- 9 Push Essex to maintain roads properly. They are dangerous because they are neglected, pot holes need filling not covering. 10 Oppose all restrictions on cars & further speed limits inc those planned for Wimbish. (2 people)
- 11 Restrict traffic in Water Lane.
- 12 Flashing speed signs

57.19 Water supply (1 person)

1 Improvement in water supply - mainly unreliable pressure.

57.20 Other (11 people)

- 1 Some opportunities for information collection missed: second homes/second home owners; daily population movement within area; access to secondary education/private education; percentage already attending adult education classes.
- 2 In my opinion a village appraisal is a bad idea. The results will be used over the next decade to implement changes suggested regardless of changing circumstances in years to come.

3 Good idea to send these questionnaires out.

- 4 There are 4 major community services in the village; Pub, Church, School and Post Office. There is NO mention of these which shows ignorance of the community.
- 5 There is no mention of the development of Stansted airport or the speeding traffic through the village.
- 6 These may be things that you can't do anything about, but you should still find out public/village opinions on them. No mention M&Tgroup.
- 7 This form is very long perhaps fewer questions would hold interest longer.

- 8 Shorter questionnaires give more chance of focussed feedback and honest answers. Many questions are variation on a theme.
- 9 Radwinter Society/Radwinter Church, W.E.A classes not mentioned. 10 Village to be tidied up.
- 11 More general amenity skips, reorganise recycling collection as village looks like a dump on collection days, better boxes with lids. (2 people)
- 12 Locally produced, preferably organic, food. Renewable energy, solar etc
- 14 Ban all bonfires.
- 15 Control cats
- 16 Invertebrates always overlooked. Daffodils most definitely inappropriate!
- 17 Reduce rabbit, fox & deer population because they destroy too may birds/plants/trees if left to multiply unchecked. (2 people)
- 18 Introduce cattle in limited numbers if economically viable.
- 19 Lichens/mosses very important as they are indicators of clean air.
- 20 Dumping of garden waste/household rubbish should be punishable.

4 Acknowledgements

Many people have contributed towards the production of this Appraisal. Thank you all.

They included the 454 people of Radwinter who completed Household/Personal questionnaires, 48 who completed Youth questionnaires and 23 who completed Business questionnaires.

The steering group was:

Sue Bright, Chairman Marion Gillon Joan Simpson

Viv Anderson Julie Haines David Smith, Parish Councilor

David Bacon Richard Hull Michael Southgate
Joe Bacon, Deputy Chairman MB Parker Martin Stocks
James Briggs, Secretary Tim Pratt Sue Taylor

Helen Brown, Parish Councilor David Richardson, Treasurer Robert and Suzanne Walker

Wendy Graves Eric Rust

Helpful discussions were held with the Rural Community Council of Essex (RCCE):

Carole Ware Fieldworker - to 10th December 2005 Chris Hobbs Fieldworker - from 23rd January 2006

The Questionnaires were prepared and data tallied by:

Dave Smith assisted by:

Household preparation – Sue Bright, James Briggs

Household tally - Sue Taylor, David Mann, Richard Hull, Sue Bright, James Briggs

Youth - Richard Hull, Julie Haines

Business - Wendy Graves, Helen Brown

The Questionnaires were distributed and collected by:

Joe Bacon assisted by Marion Gillon and Joan Simpson

The editorial group was:

Julie Haines, Wendy Graves, Sue Bright and James Briggs
